

TENNESSEE BUREAU OF INVESTIGATION

Forensic Services Division

Toxicology Quality Assurance and Procedures Manual

6.1 Introduction

6.1 Introduction

The purpose of this section is to provide a quality assurance program for the Toxicology Unit of the Tennessee Bureau of Investigation. In combination with the TBI Written Policy and the TBI Forensic Services Division Quality Assurance Manual (TBI QAM), it is designed to ensure that the parameters of the testing process are routinely monitored in a manner that maintains the success and reliability of the analytical results and the integrity of the submitted evidence.
